

Explanation of the philosophy hidden behind the **Institute's** logo

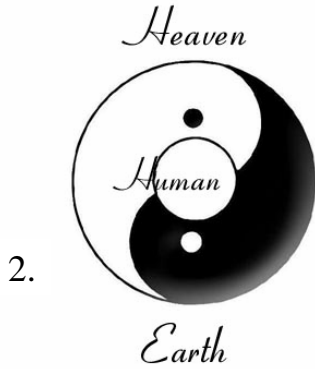

The Institute's logo is based on the combination of all ancient Chinese philosophy & healing theories, the Yin/Yang, the Three given gifts, Five Elements & Eight Trigrams.

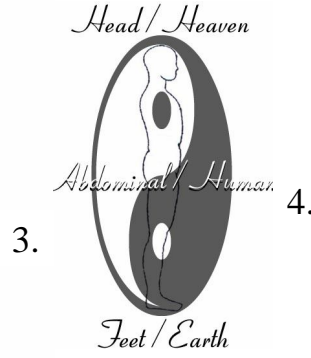

**Yin & Yang**

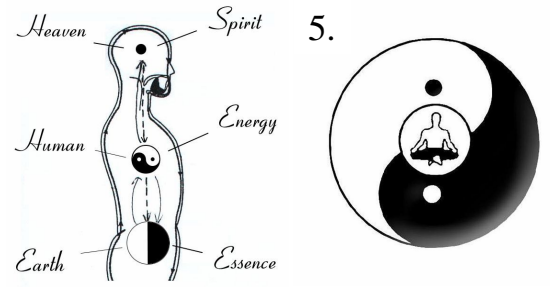

1. the symbol of the two opposite energy forces in any objects in the universe.

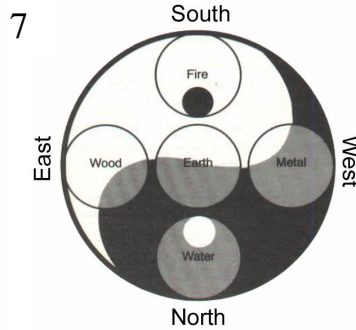

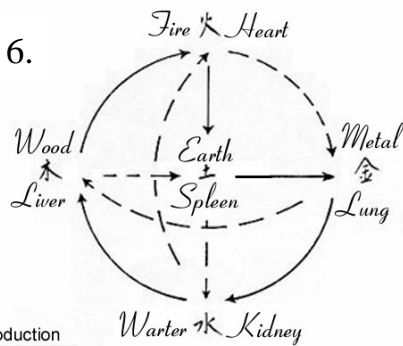

Heaven, earth and human are the given gifts from the universe. In Chinese thought.

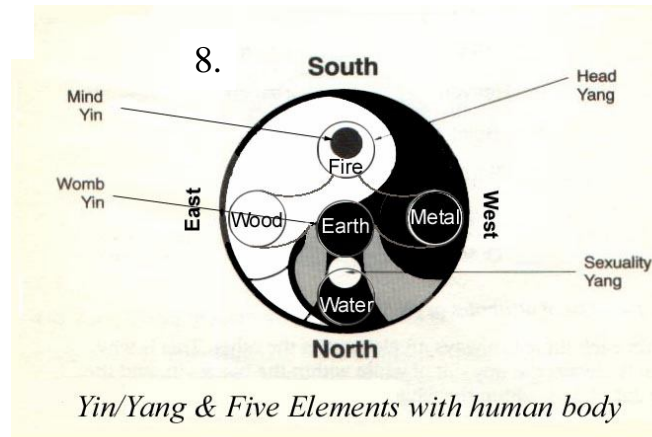

The human body is a small universe. (Now science agrees that a single human cell is a small universe).

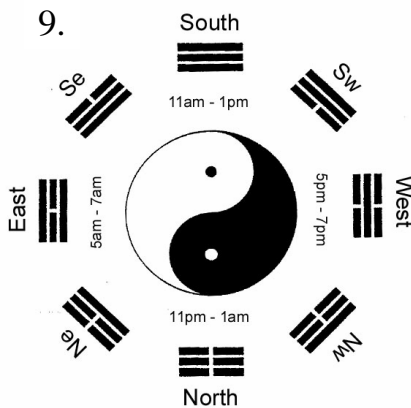

Ultimate unification between heaven, earth and human is the highest achievement for human being.
